

THANK YOU FOR YOUR DONATION

Together, we can protect the American civil justice system — and all Americans.

Dear Paul,

You and I both know that the deck is stacked against the little guy. Consumers, patients and workers have an uphill battle against powerful corporations and their supporters on Capitol Hill.

But we're speaking up — thanks to you and like-minded lawyers across the country.

Your generous donation this year to the American Association for Justice Political Action Committee (AAJ PAC) gives us the fuel to continue our mission — to give people a fair chance to receive justice following an injury from the negligence or misconduct of others. We spoke out on topics such as medical malpractice reform and forced arbitration, and worked to streamline the Medicare Secondary Payer process, just to name a few.

As the political arm of the American Association for Justice, AAJ PAC continues to be the only federal PAC dedicated to preserving the civil justice system. AAJ PAC helps to fund the races of federal pro-civil-justice candidates and incumbents on both sides of the aisle. As we near the 2012 elections, your support is more crucial than ever. Officials who are elected with the support of AAJ PAC will help to ensure your clients are heard on Capitol Hill.

As we move forward, you can be sure that AAJ PAC will continue to be vigilant and forthright. Recently, the United States Supreme Court has delivered several decisions that are disastrous for patients and consumers. We will work to help pass legislation to remedy these decisions.

There's a great deal more work to be done, and together, we can help sway the balance of power toward justice for all. On behalf of all the "little guys" helped by AAJ PAC in the past and in the years to come, thank you for your donation.

Sincerely,

Gary M. Paul
President
American Association for Justice
